## PASADENA AFFAIRS.

## A BUDGET OF NEWS FRESHLY GATHERED.

The True Boom Coming—Street Railroad Matters—A Bellicose Female—Other Criminalities—A Rapid Transit and Electricity—A Trombone Bull—Musicals.

PASADENA, May 8.—[Specially Reported for THE TIMES.] This cloudy, foggy weather is bringing forward vegetation at an astonishing rate, and the promise is that crops of all kinds—grain, fruits and vegetables—will yield most abundantly after their kind this season. What a marvelously fruitful valley we have here, when one stops to consider the matter. At the base of the mountains, and for some distance down the slope, the soil is of that mixed nature that is so favorable for the growth of citrus fruits, while on the more level reaches it increases in richness, and in areas of thousands of acres here and there attains its maximum of depth and fatness, where alfalfa grows abundantly without artificial irrigation, and cereals, deciduous fruits and all the products of the garden flourish with astonishing productiveness. The Spanish padres, who founded the California missions, seldom or never made a mistake in selecting the spots for their religious colonies, and in no section of the State was their sagacity in this particular more markedly justified by results than here. The conditions which made the San Gabriel Mission the richest in the State in cattle, horses, sheep, and the varied products of the soil are substantially the same today as then. The whole valley is an alluvial deposit, watered by the profuse drainage from the southern slope of the great broad Sierra Madre range. It is a favored region, and when the vast population which is destined to inhabit it shall put the capabilities of its soil to the test we shall find it equal in food-producing resources to the most favored spots of the earth. In these resources and its matchless climate (which is, indeed, a part thereof) will be found the true strength of our future booms.

The stockholders of the Pasadena Street Railroad Company (Fair Oaks line) held their second annual meeting yesterday. 141 of the total of 189 shares issued being represented. Stephen Townsend, president of the company, presided. The election of a board of directors resulted in the unanimous choice of the old board, as follows: S. Townsend, P. M. Green, G. Roscoe Thomas, R. Williams, Willard Thompson, J. Ellis and P. G. Wooster. Secretary Wooster submitted his annual report of the condition and operations of the road for the year, showing a gratifying state of affairs. The report shows the capital stock paid in to be \$18,900; value of plant, \$35,795.10; total expenses for the year, \$33,543.74; total length of track operated, 34 miles; total number of cars, 5; number of horses, 25. At a meeting of the directors the following officers were re-elected: Stephen Townsend, president; R. Williams, vice-president; P. G. Wooster, secretary; P. M. Green, treasurer. It was decided that as soon as Pasadena avenue shall be graded the road will be extended southward on that thoroughfare from Vineyard to California street, and thence westward to Orange Grove avenue and beyond.

The hose company turned out for drill last night, and gave a pretty thorough demonstration of what can be done with the hydrants on South Fair Oaks avenue. The boys were able to throw a half-inch stream over the Acme Hotel.

Messrs. P. G. Wooster and W. S. Holland are building cottages on Catalina Islands, and are also equipped with flat-bottomed skiffs, wherefrom to entice the guileless finny denizens of the deep into taking the hook.

The committee appointed by the G. A. R. Post of Pasadena to arrange for observing Memorial Day has had the good fortune to secure for orator on that occasion Gov. L. C. Sheldon, who is now a resident here, but well known throughout the State and in the Southwest. A notable speech may be expected of the Governor. He is not only a good talker, but has the distinction of having been the first orator to officiate at memorial services held in honor of the Union dead. It was at New Orleans in 1862.

Friends of ex-City Clerk Sawtelle will be sorry to learn that he is lying seriously sick up north, where he went some time ago to take Mr. and Mrs. N. G. Yocum's children to them.

Ketchel, the man arrested yesterday for sodomy, will be tried before Justice Terry tomorrow morning at 9 o'clock. If the crime alleged to have been committed shall be proven, the punishment meted out to such a wretch cannot well be too severe.

A woe-begone tramp graced the dock this morning, and received with nonchalance a sentence of 30 days. If an artist had happened to want a subject to pose for "Despair Sitting on a Monument Smiling at Grief" he could not have done better than to take this specimen of the peregrinating species.

The directors of the Rapid Transit Company held an informal meeting yesterday, but transacted no business. Dr. Gocheneau of San Diego, a gentleman interested in electric motor roads, was present, and gave the directors much interesting information concerning that system of operating street lines. His plan differs from that of the Los Angeles company in that the current of electricity is conducted to the car from two wires instead of one. It is the Henry patent.

A correspondent of the Tribune describes the vice-president of the Pasadena Board of Trade, Col. Ray, as a man little known here. If the newspaper which prints this cover disparagement, and its unknown correspondent, were both better known in this community and knew more of the community's prominent members such an allusion would not have been made.

A woman named Charlotte Coleman of San Francisco left \$100 in the city treasury this morning, and is doubtless now in Los Angeles bewailing her sad fate and anathematizing Pasadena justice. She came up here yesterday from the county seat shortly after being put under \$50 bonds there for belligerence, the complainant being a Mrs. Campbell, wife of a butcher here, who for some cause had become the object of Miss (or Mrs.) Coleman's wrath. Here the quarrel was renewed last night on such a noisy scale that Capt. Shaw took the assailant in. Her heavy fine this morning seemed to be justified by the condition of the other lady's eyes, which had been put into deep mourning.

That Miss (or Mrs.) Coleman was abundantly able to pay the bill was made evident from the fact that she had upon her person about \$1000 in cash, besides a store of diamonds and other jewels. It would appear that a lady of her wealth should have refrained from so vulgar a thing as fighting.

A very enjoyable musical and reception took place this afternoon at the residence of Mr. P. M. Green, in honor of Emil Seifert, violinist, and Heinrich Kohler, pianist. The company was a large one. The vocal music was by Mrs. Mamie Perry-Davis and Mr. W. Gardner Cogswell, and both these highly-trained singers were heard at their best. The playing of Mr. Kohler, the newly-arrived pianist, was thoroughly delightful.

"Doughnuts" is the euphonious cognomen of a Pasadena youth of rather precocious proclivities, but tender years. Last night he conceived a passion for a small sum of money belonging to another boy, and proceeded to stand him up for it with a revolver and obtain it. For this act of knight errantry, "Doughnuts" suffered imprisonment in the city dungeon, and tomorrow will be hauled before the City Justice and suffer for his enterprise.

The Pasadena Opera Company had a rehearsal at the Carlton last night preparatory to presenting the *Pirates of Penzance* at Los Angeles on Thursday evening. Concerning matters theatrical, let it be said that the Grand Opera house of this city comes on apace, but that its completion is one of those events pretty sure to occur. There is considerable speculation as to who is to lease it, but little certain knowledge. Harry Wyatt is understood to be an applicant for it; also McLean & Lehman, while George Monfort, lessee of Williams' Hall here, would not be averse to managing the new house.

The Council held a meeting this afternoon, but did nothing but routine business of an unimportant character. The ladies have announced a long list of committees for the flower festival, beginning at Williams' Hall on Tuesday, the 16th, and continuing through the week. It will be well managed without doubt.

**OUR NEIGHBORS.**  
Ontario, May 8.—[Correspondence of THE TIMES.] Notwithstanding the dull season everything at Ontario is moving along beautifully. Substantial improvements are being made in all sections of the colony, and everywhere there is a general appearance of thrift. The young orange groves, with their increasing size and foliage, are ever becoming more beautiful; and just at the present time the delightful odor of the blossoms filling the air with fragrance, speaks even more powerfully to the olfactory nerves than the beauty of the whole grove does to the eye.

In the matter of planting the model colony is keeping up its reputation. About 300 acres have already been set this season to citrus fruits, principally orange, of course, and nearly all the best varieties of budged fruit. One local firm sold over 11,000 orange trees, all for home planting, and numerous other firms have each sold large quantities. In a few years Ontario will be one of the prettiest sights conceivable—a veritable orange grove, spreading out on either side of Euclid avenue, its handsome central line, and all sloping so uniformly as to lie within the range of vision.

In addition to citrus fruits, an immense number of ornamental trees and small fruits have been set. One yard here sold 22,150 of the latter. This same yard also disposed of 31,000 deciduous fruit trees, but these were largely shipped to other places, as the Ontario stock, being entirely clean and free from all scale and other pests, is much sought after. However, quite a quantity even of these were for home planting. The model colony was never carried away with the town-lot craze, but, on the contrary, used her influence to suppress it. Nor is she at all dependent upon booms or any such like pernicious. Here the intrinsic value is in the land—the true, unfading basis of enduring prosperity. Lands that will produce \$500 per acre net profit a year are worth much gold coin. Such lands are not benefited by blind booms; they are positively injured. During such times of excitement general farm lands worth \$50 or \$75 per acre are apt to sell for just as much as the finest citrus lands, which would be cheaper at 10 times the price. Fortunately the craze is over, and acre property will henceforth be appraised on true principles. As the lofty mountain peak towers above the river bottom, so must the price of real orange land rise above that of the general agricultural order. Buildings appear to be going up about as rapidly as ever. For the four months of this year ending the 1st of May, 78 distinct structures have been finished at a cost of \$122,950. Plenty of others are under way, although it is scarcely to be expected that such extraordinary activity will continue unabated throughout the summer. That there will be a steady building business there is no question whatever, but the next month or two will, of course, see a falling off in the number.

For some time past the Baptists of the colony have been quietly drawing together with the intention of forming a separate congregation. Their intention has recently been carried into effect and Ontario has now its sixth regular church organization. All the churches are liberally supported, and we have no doubt the Baptist, the last to enter the field, will be equally so. The start is made under favorable auspices, with quite a numerous membership, which will, of course, rapidly increase as the community grows.

**NORTH ONTARIO.**  
The Presbyterian Church, which has been building here the past few months, was yesterday opened for divine worship. The building is scarcely finished, and it would perhaps have been as well had the opening been postponed for a week. However, everything passed off well, and as sufficient money was raised to pay off every liability, there can be no ground for dissatisfaction. The attendance was very large, and the church edifice, though spacious, was crowded by an attentive congregation. Rev. Dr. Ellis of your city conducted the opening ceremonies, assisted by Rev. Dr. Marks and the resident pastor. The building cost some \$8000, all of which has been provided for but \$2100. This sum it was decided to raise at the opening, if possible, so that there should be no debt left on the property. And right nobly it was done. Not only so, but in a surprisingly short time after the appeal was made the subscription list footed up \$2200, or something more than asked for. This is highly honorable to the congregation and creditable to the colony. In opening the handsome Methodist Church a few months since, there was exactly the same experience—more money was subscribed than was necessary to meet all obligations. The model colony not only builds beautiful churches, it does something much rarer, viz., pays for them out of hand.

A Phillips & Co.'s semi-monthly excursions east and west have but one change of cars between California and Boston, that being in the new Santa Fe depot at Chicago. No transfers.

"The Times" has a larger bona-fide circulation than any other newspaper published in Southern California.

KEELY, the motor man, is said to have invented another new force. He knows how to force money out of fools' pockets.

SANTA BARBARA is smiling all over at the prospect of having the First Regiment, United States Infantry, camping in her midst this summer.

The Papal decree against the Irish "plan of campaign" continues to excite much comment in this country. It is generally regarded as a dangerous precedent.

NEW JERSEY's high license law went into effect on the 1st. The liquor dealers have engaged counsel and propose to test the constitutionality of the law.

THE River and Harbor Bill passed the House by quite a large majority—161 to 69. This will put a big slice of the surplus in circulation throughout the country.

ANOTHER straw, which shows the enormous growth of California business, is the statement that the Southern Pacific has 180 new engines in course of construction.

THE Chicago Tribune takes a poor way to advance the interests of Judge Gresham, when it constantly attacks other aspirants. We are quite sure that nobody is more convinced of this fact than the Judge himself.

This will be a good year for Southern California wheat growers. There is an enormous deficit in the wheat crop of the country. The deficit is estimated at from 50,000,000 to 80,000,000 bushels in four of the leading States.

SENATOR HEARST don't often come before the public, but when he does he distinguishes himself, as he did the other day, when he was photographed in Washington with a cigar in his mouth. Mr. Hearst is a great statesman—with a sack.

THE directors of the New York Real-estate Exchange, by resolution, called upon Mayor Hewitt to remove Mr. Marsh from the commission, because, in their opinion, he is insane, basing that opinion on the manner in which he was duped by the medium, Diss Debar. Judged by that standard, there are a great many lunatics running around loose.

THE following are the Republican nominees for State officers in Illinois: Governor, Joseph Fifer, McLean county; Lieutenant-governor, L. B. Ray, Grundy county; Treasurer, Charles Becker, St. Clair county; Secretary of State, I. N. Pearson, McDonough county; Attorney-general, George Hunt, Edgar county; Auditor, George W. Pavey, Jefferson county.

THE New York Herald has gone back to its old price of three cents for the Sunday issue. The Times, Tribune, World and Sun have advanced their price to four cents, which is low enough. The reading matter in a metropolitan daily is equal to that of a first-class magazine, and four cents at retail scarcely covers the cost of the white paper.

In yesterday's TIMES appeared a dispatch from St. Louis, stating that a resident of that place claimed to know that the blowing up of the steamship Sultana in 1865, by which nearly 2000 lives were lost, was caused by the smuggling on board of a torpedo by a Confederate. It seems strange that, if this is so, no hint of the fact should have been given previously. For the sake of humanity, we would prefer to believe that there is no foundation for so flimsy an explanation of the disaster. In connection with this rumor, a graphic description of the occurrence, by two of the survivors, which we reprint today from the Chicago Tribune, will be found interesting reading.

UNDER the present administration serious evils have arisen in the Indian service. That service has, in fact, been diverted to the interests of personal and partisan politics. Faithful agents have been replaced by drunken and dissolute men, causing great scandals in several instances. A case in point is that of the Rosebud Reservation, where an agent who had established seventeen schools among the Indians and had brought 4000 acres of land under cultivation was dismissed without cause and a superintendent of schools appointed, who, recently, in a drunken paroxysm, assaulted the agent with a knife. The President has information of these cases, but does not interfere. He has the power to do so. Why does he not exercise that power?

## POINTS OF THE MORNING'S NEWS.

Prohibition conventions in Colorado and Georgia.

## In Full Blast.

A short time ago it was announced, with much flourish of trumpets, that gambling had been suppressed in Los Angeles. We all know what a fuss this step caused in the Board of Police Commissioners, which body was divided into two opposing sections—the majority of two ostensibly opposed to gambling and the Chief of Police desirous of running his office to suit himself. It seems that the local Democracy became alarmed at the risk of offending the gamblers, to whom it owes so much of its support, and an embassy was sent to the powers that be, to represent the great danger of antagonizing the poker and faro branch of the Democracy. The result was a sudden cessation of the quarrel. Another was the reopening of the games, which are all again running in full blast.

The Chief has repeatedly said that he could close all the games and keep them closed whenever he wished to do so. The fact that he has not done so may be taken as an indication that the Board of Police Commissioners—or at least a majority of them—do not wish the games closed.

The people do, however. They are not willing to see this fair city delivered over to the tender mercies of rogues and ruffians. The respectable citizens of Los Angeles call upon the Board of Police Commissioners—of which body Mayor Workman is one—to enforce the law regarding gambling.

—Since the above was written, a show of suppression was made, late last night, by the capture of two gamblers and the arrest of a dozen "patrons." One swallow don't make summer, though, and a dozen gamblers is not a tithe of the number of the fraternity doing business in Los Angeles.

P. S.—Later.—It was all a mistake. The gentlemen who beguile the tedious hours away, and put money in their purses by toying with the seductive pasteboard, merely went out to brace themselves up with a little lunch, after which they resumed their professional duties with renewed ardor.

We recently criticised a publication entitled "Annual Meteorological Review and Brief Notes on the Resources of the State of California," by the Meteorological Department of the State Agricultural Society, compiled by Sergeant James A. Barwick, Observer at Sacramento, of the Signal Corps, U. S. A., and Meteorologist to the State Board of Agriculture. Our criticism was based upon a review of the work, with extracts, which appeared in a San Francisco paper.

Our article elicited a communication from Sergt. Barwick, in which he advises having forwarded us a copy of his book and says: "I do not think you can find anything in there derogatory to Southern California but what can be proven by the Signal Service figures."

It is said that figures may be made to prove anything. Such being the case, it is of course possible that the figures of the Sacramento Signal Service, under the expert manipulation of Sergt. Barwick, may be made to prove all that this volume contains, but no system of mathematical gymnastics could possibly authorize the devotion of so large a space to the expounding of the good about Sacramento and so little to explaining the bad about Los Angeles. The subtitle of this work should evidently have been: "The Resources of the Sacramento Valley, with Brief Notes of Its Advantages Over All Other Sections of the State." As a proof of the pertinency of this suggestion, it is only necessary to state that the volume contains 232 pages, of which 110 pages are devoted to a description and laudation of the Sacramento Valley, and just one page and a half to Los Angeles county. The numerous articles on Sacramento county and city are largely composed of the usual boom matter, several of them being republished from Sacramento papers. If the work of the compiler had been confined to writing Sacramento up through half the volume it would have been bad enough, in a State and Federal publication, ostensibly devoted to the whole State, but his efforts on behalf of the Malabar Belt do not stop there, as we showed in our previous criticism. Many of the articles contain unwarranted statements regarding Southern California which are as malicious as they are untrue. A few samples will suffice.

In a letter reprinted from the Bee, Sergt. Barwick corrects some statements made in that paper regarding the relative temperatures of Sacramento and Los Angeles, and calls attention to the superiority of the climate at the former point.

In an article on the agricultural resources of Sacramento county occurs the following passage:

Oranges and lemons ripen here much earlier than in the southern part of the State. This fact may seem strange to many, but any one who doubt it may prove it to their satisfaction very easily by comparing the fruit from the two localities in November. It is a fact that the oranges of Sacramento and other central counties are always sold at fancy prices long before any are received from the southern counties. This is an advantage which will be apparent at a glance.

Can this be proved by the Signal Service figures?

In an article on Yuba county is the following paragraph:

Our spring and summer nights, while pleasant, are not so cool as the nights of the same season in Los Angeles, where, in consequence of ocean winds and tides, the growth of vegetation is less rapid than it is here. Thus it is that in this section the orange, for example, ripens a month or six weeks earlier, and reaches a much greater degree of excellence than the southern cities of Los Angeles and San Diego.

Will the Signal Service figures prove this?

Ten pages are devoted to matter reprinted from the Sacramento papers, to prove that the severe freeze of last winter, when the thermometer at Sacramento fell to 19°, was practically a benefit to that section.

In an article on the sanitary aspect of Sacramento, the assertion is made that the summers of that place are "uniformly cool." This, of course, does not hurt Los Angeles. Neither will it help Sacramento. It is simply a lie. But will the Signal Service figures prove the statement?

As an effort to boom the Sacramento Valley, Sergt. Barwick's publication is a success, but as "Brief Notes on the Resources of the State of California," issued at the expense of the people of the whole State, it is not only a delusion, but a fraud, and a fraud of the first magnitude. Fortunately the prosperity of Southern California is based upon too solid a foundation to be shaken by such publications, otherwise we should long ere this have been completely demolished. We have little fear that Sergt. Barwick's remarkable signal service figures will induce any one to forsake the health-giving breezes of Los Angeles for the malarial swamps of Sacramento, even though those figures prove that the nights at Sacramento are "uniformly cool."

We think that Sergt. Barwick should be reduced to the ranks for toying with the truth.

JOHN MARTIN, editor of the New Mississippian, who was killed recently in a duel with Gen. Wirt Adams, was the author of the "Red Manifesto," a circular issued at the late election in Jackson, Miss., printed in red ink and warning the colored people not to attempt to vote under penalty of being "wiped out."

## AMUSEMENTS.

AT THE OPERA-HOUSE.—Mrs. Langtry played to a light house again last night. While it is true, especially in matters theatrical, that there is no disputing about tastes, Mrs. Langtry's marked advance in every detail of her art is everywhere conceded, and what her peculiarly repulsive type of beauty has lost in placidity, it has gained in depth. After having been subjected to the bitter end, to notoriety of every kind, and credited with every motive, except a real desire to know her country, Mrs. Langtry has finally honestly earned the title of actress and artist, and whatever role she may essay, whether as suitable as "Lena Despard" or not, will be criticised more respectfully than she has been.

As for the play itself, *As in a Looking Glass* is a play of a low order, dealing with the vicious side of humanity and having no really good characters. The entire "gang" of characters are an off-color lot, and no matter what success Mrs. Langtry may achieve in the character of "Lena Despard," she can never win enduring fame until she becomes a prodigy in roles requiring a higher order of talent and morals in their production.

Louis A. Morgenstern, advance representative of the Gus Williams Company, is in the city. His company will appear in *Kepler's Fortune* next Monday evening for a week's engagement.

## THE GREAT WALK.

LITTLEWOOD Passed by Hughes—The Latest Score.

NEW YORK, May 8.—[By the Associated Press.] Littlewood still continues to lead this morning in the six-day walk. Since the start he has been off the track only two hours and 28 minutes, and hangs on with dogged persistency. Cartwright has been steadily losing ground. He stays off the track for 135 miles. The other two were but few people in the garden after midnight, and nothing of interest occurred. The score at 9 o'clock this morning was: Littlewood, 173 miles; Cartwright, 155 miles; Golden, 153 miles; Hegleman, 127 miles; Hughes, 102 miles; Herty, 155 miles; Herring, 135 miles; Dillon, 129 miles; Vint, 127 miles; Norem, 140 miles.

The exciting scene of the day in the walking match occurred shortly after noon. Hughes, knowing Littlewood was probably disabled, rolled off lap after lap. Slowly he gained on Littlewood, until, at 12:15, he passed him, amid enthusiastic cheers of the spectators. At 2 o'clock he was six miles in front. Hegleman and Day have withdrawn.

At midnight the score stood: Hughes, 232; Littlewood, 225; Herty, 225; Golden, 215; Guerrero, 210; Norem, 208; Cartwright, 204; Campana, 189; Dillon, 189; Vint, 180; Saunders, 154. Hughes is limping now.

Sale of Thoroughbreds. LEXINGTON, May 8.—Bruce & Kidd's combination sale took place today at the stables of Treach & Wilson. Forty-seven head were sold. The best prices were: Chestnut filly by imported Gienelle, dam Muriel by imported King Ban, 129 U. S. Shippes, Stockton, Cal., \$675; bay filly by Tenbroeck, dam Bonnie Kate by imported Knight of St. George, L. U. Shippes, \$685; bay colt by Longfellow, dam Semper Idem by imported Glen Ashol, Dwyer Bros., \$2800; brown colt by Longfellow, dam Rose Marie by Lisbon, L. C. Bruce, \$800; bay colt by Longfellow, dam Geneva by War Dance, E. D. Corrigan, \$850.

Death of ex-Minister Birney. BAY CITY (Mich.), May 8.—Hon. James Birney died this morning, aged 70 years. He was a son of James G. Birney, who ran for President on the Liberal ticket in 1840. Deceased was elected State Senator in 1855, Lieutenant-Governor in 1860, and served Circuit Judge for four years. In 1875 he went as United States Minister to the Netherlands, resigning in 1883, and has been practicing law since.

Gen. Banks Attached. BOSTON, May 8.—Some excitement was caused today in the United States Marshal's office by the attachment of \$4000 belonging to Gen. Banks on account of suits brought by ex-Deputy Galloup, who claims that Banks owes him \$2000.

Gen. R. W. Kirkham of Oakland will spend several weeks at Adams Springs.

## POLITICAL GOSSIP.

## A Story About Blaine and Conkling.

Why the Latter Stood Aloof in the Campaign of 1884.

Chairman Jones Denies That Alleged Interview at Pittsburgh.

Meeting of the California State Central Republican Committee—The Various Parties Hard at Work in the Eastern States.

By Telegraph to the Times.

NASHVILLE (Tenn.), May 8.—[By the Associated Press.] The American press interviewed with A. M. Hughes, Jr., chairman of the Republican State Executive Committee, regarding the failure of Roscoe Conkling to actively support James G. Blaine in the last Presidential canvass. Hughes gives these facts, never before made public. In brief, Hughes said:

Soon after Blaine was nominated, Senator Chaffee, realizing the importance of securing the assistance of Conkling for Blaine in New York, came east and went to New York for that especial purpose; that Chaffee, as a result of a prolonged and earnest conference with Conkling, secured from him a promise that if Blaine would write him a personal letter, requesting his assistance, Conkling would reply in an open letter with a pledge to actively support him in the canvass; that Senator Chaffee, elated at his success with Conkling, got on the first train which left New York after this pledge was given, and went to see Blaine at his home in Maine. The situation was explained, and Blaine wrote the desired letter to Mr. Conkling. This letter was given to Walker Blaine, to be carried by him in person to Conkling as a delicate compliment, and Chaffee, rejoiced that his mission was done, disappeared from the scene. He earnestly awaited the publication of a response from Conkling, but it never came. Investigation proved that Walker Blaine carried the letter to New York, but on his way to Conkling's house stopped at the national Republican headquarters, mentioning the purpose of his presence in New York to Elihu B. F. Jones, chairman of the Republican National Executive Committee, and one or two others. These managers decided that it was best to ignore Conkling, and that the letter must not reach him. Hughes positively said that these statements are correct, for they came directly from one of the gentlemen who suppressed the letter. This man revealed the circumstance after the death of Conkling, and when it was known that Blaine would not be before the next convention.

CHAIRMAN JONES TALKS. NEW YORK, May 8.—Chairman B. F. Jones of the Republican National Committee in an interview with a Tribune reporter tonight denied the reported interview with him sent out from Pittsburgh last Saturday night in which he was made to say that Blaine could not support Allison, Sherman or Harrison for the nomination; that Blaine was socially friendly to these gentlemen, but politically they were wide apart. He had received a letter from Mr. Blaine since the letter of withdrawal. Blaine, he said, had certainly withdrawn as a candidate, but if the convention should nominate him, he would do more than make an united effort to secure prohibition.

When asked about the truth of the story printed by the Nashville American today, Mr. Jones said that he never saw or heard of it, and he classified the story as a par with many others now floating about. ELKINS DENIES IT. Hon. Stephen B. Elkins was interviewed by the Tribune in regard to the same letter and said: "No such letter was ever written, and no letter of the kind was sent by Walker Blaine. Therefore, it was not seen by members of the committee and stated. We would have been only too glad to see Blaine and Conkling on good terms. The whole statement is ridiculous."

## CALIFORNIA POLITICS.

Meeting of the Republican State Central Committee.

SAN FRANCISCO, May 8.—[Special.] At a meeting of the Republican State Central Committee today, Gen. Dimond presiding, P. B. Cornwall was elected vice-president and H. L. Dodge treasurer. The following committees were appointed:

Finance Committee—J. B. Stetson, H. L. Dodge, M. H. Hecht, John Leibe, A. Abbott of Sacramento, T. M. Shippee of Stockton, D. B. Jackson, E. F. Delzer of Oakland, L. Finnigan of San José, and W. F. Fitzgerald of Los Angeles.

Auditing Committee—J. F. Cutting, A. R. Briggs, E. N. Gallagher, W. H. Chamberlain and D. B. Jackson.

Literary Committee—Col. J. P. Jackson, J. J. Dare, J. L. Boone, E. F. Delger, M. D. Burck.

Campaign Committee—P. B. Cornwall, C. W. L. Chas. McClure, D. McClure, M. M. Estee and M. D. Burck.

Registration Committee—David McClure, J. L. Boone, M. D. Burck, P. B. Cornwall and E. M. Gallagher.

The committee was addressed on the general issues by Gov. Waterman and Senator Williams.

## STATE CONVENTIONS.

New Hampshire Republicans Choose Delegates to Chicago.

CONCORD (N. H.), May 8.—[By the Associated Press.] The Republican State Convention met today, and was called to order by J. H. Gallager, who made a short address of congratulation upon the favorable outlook for the party. His reference to Blaine was greeted with long-continued applause.

Henry E. Burnham of Manchester was chosen permanent chairman. Burnham made a long address, in which he reviewed the career and achievements of the Republican party and its great benefit to the country, while the Democratic party, he said, has given us Grover Cleveland and three years of pretense and hypocrisy, subversive to free-traders of the South, and shameful surrendering of great American interests entrusted to his keeping; and an administration which has been a constant menace to our most important business interests, and which has finally proclaimed its hostility to the long-established policy of this country, under which it has attained its greatest prosperity.

The platform denounces the Administration for its tariff policy, for its pension policy, for its fisheries policy, and for its pretense of civil service reform. The platform is particularly severe upon the wool clause in the Mills Tariff Bill. It denounces the Democratic party for identifying itself with the interests of the liquor dealers throughout the country, and instructs the delegates to Chicago "to use every honorable effort to place in nomination a ticket that will command universal confidence, defy every assault and be resistant to the pull of a ticket that in its triumphs, which we unhesitatingly predict, shall restore the Government to the only party that is national in its aims and just in its purposes."

Plench Cheney, Joseph H. Gallager, Hiram A. Tuttle and Alfred T. Batchelder were chosen delegates to the National Convention. They are unopposed.

MICHIGAN REPUBLICANS. GRAND RAPIDS (Mich.), May 8.—The Republican State Convention to elect delegates to Chicago was called to order shortly after noon. Temporary Chairman E. S. Lacy referred to Gen. Alger in a happy

way, and took strong ground in favor of increasing the strength for Alger in the Chicago Convention. The resolutions adopted reaffirm the principles of the national platform, eulogize the protective policy, and arraign the present Administration for a selfish and sectional tariff policy, especially for sinning against a few great industries of Michigan for punishment and destruction. The closing resolution presents the name of Roscoe Conkling for President, and calls on Michigan delegates at Chicago to use every honorable means to secure his nomination for President.

The following were elected delegates at-large to the Chicago Convention: Port E. Frazer, J. K. Bois, W. Q. Atwood (colored) and T. B. Dunstan.

DELAWARE DEMOCRATS. WILMINGTON (Del.), May 8.—The Democratic State Convention assembled at 2 p. m. Robert Hill was made permanent chairman. The following delegates to St. Louis were chosen: L. C. Hanhegeert, E. R. Cochran, W. A. Hardcastle, C. J. Harrington, W. F. Cousey and W. S. Stevens.

The platform renews pledges of the Democrats of Delaware to the principles of the party, indorses the Administration and the course of Bayard as Secretary of State, indorses President Cleveland's views on the tariff and his opposition to monopolistic trusts, favors his renomination, and closes as follows:

"Resolved, that we indorse and favor the passage of the bill now before Congress known as the Mills Tariff Bill."

The convention was harmonious and enthusiastic.

ARIZONA'S DISCORDANT DEMOCRACY. PHOENIX (Ariz.), May 8.—The Territorial Democratic Convention met here yesterday, and was the occasion of a sharp contest between the Territorial administration party and its opponents. Three hours were occupied in organizing a temporary organization. At 11 o'clock last night, John C. Herndon of Prescott and George G. Berry of Tombstone, both anti-administration men, were chosen delegates to St. Louis.

Strong resolutions were passed indorsing President Cleveland, and asking for home rule for the Territories.

A motion indorsing Gov. Zulek's administration was tabled. Resolutions condemning Zulek were introduced, but more temperate resolutions were substituted.

## THE GREENBACKERS.

LANSING (Mich.), May 8.—The Greenback State Convention today selected delegates to the Cincinnati Convention. The resolutions declared renewed faith to the principles and instructions of the delegation to the National Convention to unite with any organization adopting the essential principles of the Greenback party, and to refuse to support any candidate, either of the old parties was apparent. The delegates were instructed to vote for the nomination of Gen. Weaver for President.

## INSTRUCTED FOR BLAINE.

PITTSBURGH, May 8.—The Republican Convention to nominate a candidate to represent the Twenty-fourth Congressional District unanimously adopted a resolution indorsing James G. Blaine, and directing the delegates representing the district in the National Convention to vote for him and use all honorable means to secure his nomination in the event of his candidacy for President.

## DELEGATES TO CHICAGO.

GRAND RAPIDS (Mich.), May 8.—District delegates to Chicago were chosen by five districts here today, as follows: Fifth District, A. B. Watson and Cyril P. Brown; Sixth, W. D. McAdams and William B. McCray; Seventh, Edgar Weeks and W. C. Butler; W. G. Sprague, W. C. Stover, J. A. Maxwell and John Hopp. The delegates are unopposed.

## JERSEY REPUBLICANS.

TRENTON (N. J.), May 8.—William J. Sewell, John Hartbrenner, John W. Griggs and George A. Halsey will be the delegates-at-large to Chicago to be selected in tomorrow's Republican State Convention. The platform will declare for Blaine and indorse the temperance legislation of the State Legislature last winter.

## LABOR DELEGATES.

NEW YORK, May 8.—The Union Labor party tonight elected delegates to the convention to be held at Cincinnati May 13th. The delegates were instructed to favor a resolution indorsing the resolute indorsement of the American shipping by the French bounty system.

## PLEDGED FOR RUSH.

MILWAUKEE, May 8.—The Second and Seventh Congressional District Republicans today elected delegates to the National Convention, and instructed them for Gov. Rusk for Presidential candidate.

## TURF TOPICS.

Opening Day at Louisville—Events on Other Tracks.

LOUISVILLE (Ky.), May 8.—[By the Associated Press.] Much interest was felt in the initiation of the Driving Park Association today. A number of fast steppers are here, among them Pepper's Hour, 2:19½; Col. Hardy of Montgomery, Ala., Maxwell of Lexington, Pat Higgins of Pittsburgh have their stables here. A number of running stables from Lexington came in yesterday.

The first day opened with an attendance of about 1000. The weather was fair and the track speedy.

In the 3-minute class, trotting—Skidmore won, Wyath second, Thierman third. Best time, 2:32.

Glennview stake, 2-year-olds—Kentucky Volunteer first, Helen H. second, Bay Filly third. Best time, 2:50½.

In the 2:28 class Estelle won the first heat, Little Thor the second and third heats. Best time, 2:25½. The race will be concluded tomorrow.

## THE LEXINGTON MEETING.

LEXINGTON (Ky.), May 8.—The second day of the spring meeting, track good. First race, three-fourths of a mile—Persimmons won, Shorover second, Gleaner third. Time, 1:15½.

Phoenix stake, for 3-year-olds, three starts—Chevalier won, Macbeth second, Autocrat third. Distance, one mile and a quarter. Time, 2:10.

Purse of \$300, three-quarters of a mile—Castaway won, Unique second, Cupid third. Time, 1:16.

## RACES AT PIMLICO.

PIMLICO (Md.), May 8.—The first day of the spring meeting the track is good. First race, purse of \$500—Duke of Bourbon first, Sam Harper second, Britanic third. Time, 1:03½.

Second race, annual homebred stakes for foals of 1885, one mile, four starters—Bell Dar first, Annie C. second, My Own third. Time, 1:45.

Third race, selling, purse \$600, three-quarters of a mile—Sam Brown first, Golden Reel second, Monte Cristo third. Time, 1:17.

Fourth race, selling, purse \$300, 3-year-olds or upwards, one mile—Auler first, Redstone second, John Gray third. Time, 1:47.

Fifth race, purse of \$500, one mile—Salvini first, Lottery second, Littletra third. Time, 1:44½.

## THE BOARD OF REVIEW.

CHICAGO, May 8.—The board of review of the National Trotting Association met here tonight and commenced consideration of cases now before it. It is said that there are about 100 cases to be passed upon.

MECHANICAL ENGINEERS' SOCIETY. NASHVILLE (Tenn.), May 8.—The American Society of Mechanical Engineers began its annual session here today. Several interesting papers were read.

## COLEMAN'S FAILURE.

## Hopeful View of the Firm's Affairs.

The Senior Partner Thinks They Can Soon Resume Business.

The Manager Says the Assets Will Far Exceed the Liabilities.

How the Collapse is Regarded in Chicago and New York—General Surprise Expressed—Some Idea of the Firm's Past Business Interests.

By Telegraph to the Times.

ASTORIA (Or.), May 8.—[By the Associated Press.] W. J. Coleman & Co.'s business embarrassment will not affect financial matters here to any appreciable degree. The Columbia cannery and B. A. Seawright's cannery are the only two concerns which the firm is interested in in this section. At one time the firm was largely interested in the Columbia River salmon business, and in 1884 had over \$400,000 invested in various canneries.

## EASTERN COMMENTS.

CHICAGO, May 8.—W. T. Coleman & Co. have had no agency in either Chicago or New York since January last, their business in both cities having passed into the hands of Delafield, McGovern, Russell & Co., of which firm J. B. McGovern, former Chicago agent of Coleman & Co., is a member. McGovern was seen late last night, and said he had heard of the failure a few hours before.

It was as great a surprise to him as he knew it would be to the business community generally. He estimated the liabilities at \$2,000,000, nearly all of which would fall upon New York. Not a dollar would be lost in Chicago through the failure. The firm has been considered thoroughly reliable, and its credit was excellent. Its paper has been on the market, and

## MESMERIZED.

## A Singular Story Told in a Courtroom.

How a Ship's Mate was Hoodooed by the Vessel's Steward.

The Queen of the Pacific Disaster Not an Accident.

Another Scheme for Organizing the Nevada Bank Almost Consummated—Mysterious Murder of an Arizona Rancher—Apache Prisoners—Other News.

By Telegraph to The Times.

SAN FRANCISCO, May 8.—(Special.) On the night of March 9th last the British bark Brussels was discovered to be on fire, but the flames were extinguished with but a few thousand dollars' damage to the vessel. Circumstances lent a mysterious color to the case, and the Grand Jury finally returned an indictment against C. L. Caskey, the mate, and Charles R. Backman, the steward, of the bark, charging them with arson. They had previously made affidavits before Notary Public Mason that Capt. Crosby had conspired to burn the vessel in order to secure the insurance. Afterward the two men were separated, and Caskey made another statement before Capt. Lees of the detective force in the presence of a stenographer and Detective Byram, denying his affidavit and admitting that he and the steward had burned the vessel and exonerated Capt. Crosby.

The two prisoners were put in the same cell in the County Jail, and yesterday in court Caskey denied his last statement, asserting that his former affidavit was the truth. He charged Capt. Lees and Detective Byram with inducing him to sign a false statement exonerating Capt. Crosby from all blame, after first getting him drunk and by making promises to him.

In court today, where Backman was having a separate trial and conducting his own case, Caskey again created a sensation by confessing to perjury in swearing to the charges against Lees and Byram.

"That man there," he cried, pointing to Backman, "made me do it. He has me completely in his power. He exercises a mesmeric influence over me and whenever I am near him I must do as he wills. He wields a terrible and hellish will power over me. It was Backman who coached and forced me to tell that story about Capt. Lees and Detective Byram yesterday. They never asked us to exonerate Capt. Crosby. Last night I was placed in a separate cell, and as soon as I was out of his presence his influence over me fled and I was myself again. I sent for Assistant District Attorney Dunne and told him I was ready to tell the truth."

Caskey swore positively that Backman fired the bark, and his manner was convincing. His conduct throughout the trial has been inexplicable, except on the basis of the possession by the steward of some such power over him. Caskey's evidence, and the affidavit in Backman's own handwriting that he fired the vessel, led the jury to bring in a verdict against the latter, finding him guilty of arson. The supposition is that the steward, having a grudge against the captain, took this course to revenge himself, compelling Caskey, who was in charge of the vessel at the time, to swear to statements implicating Capt. Crosby. There was also a charge of grand larceny against Backman, he having in his possession certain property belonging to Capt. Crosby, but he made it appear that this had been given him by the latter. Caskey is still held.

## THAT OPEN DEADLIGHT.

Evidence That the Queen Disaster Was Not an Accident.

SAN FRANCISCO, May 8.—(By the Associated Press.) It is now learned that the steamer Queen of the Pacific sustained far greater injuries than was at first considered possible. This morning a thorough examination was made in her engine-room and around her boilers. It was discovered that new boilers will probably have to be built. The whole steamer is badly strained, and the loss is exceedingly heavy. The cargo was discharged today, and every article taken from the hold that can be ruined by water is a total loss. Some baggage was removed, and almost all was found to be ruined by the sea water. Ex-Gov. Perkins spent several hours this morning in trying to get at the truth. He is forced to the conclusion that some one knocked the deadlight open, most probably with the intention of venting his spite on the company by letting the water run in and damage the cargo; possibly, however, for the purpose of sinking the steamer.

Ex-Gov. Perkins said: "I have questioned every man on board who could be expected to shed any light on the case. A lower deadlight was open, and the water rushed in through it. The cover was made snug and secure by two men, the glass being first placed in position, and then the iron cover being screwed on by nuts from the inside. The cover was on at midnight, for the watch found no water in the hold at that time. The wrench was hung by the deadlight, and the nuts could not have been loosened without its use. I am so thoroughly convinced that some one opened the deadlight, that I, myself, will offer a reward of \$500 for information that will lead to the arrest of the guilty man. It may have been one of our employees, who knew of the prediction by spiritualists, and took advantage of the opportunity to get even with the company and blame it on the prophet. Some time ago Capt. Alexander had some trouble with his men. Some of them deserted, and the dispute was settled by the courts. It may have been that one or more of the dissatisfied element stole down to the deadlight and opened it, not thinking that the Queen would sink, but counting on giving us a chance to pay for damages."

## THE NEVADA BANK.

Still Another Plan to Reorganize the Concern.

SAN FRANCISCO, May 8.—(By the Associated Press.) The statement is now made that negotiations are pending in the Bank of Nevada and that Messrs. Mackay and Flood will retire and a syndicate with James G. Fair at its head will assume charge of the institution. Mr. Davis, late president of the Pacific Coast Railroad, will, it is said, take a prominent part in the management of the new organization. At a meeting today the matter would undoubtedly have been consummated on the basis mentioned had it not been for the fact that at present two other parties are figuring on taking up the bulk of the stock in their own individual interests. It is satisfactorily assured that all danger of the bank closing its doors and retiring from business is past.

## The Bank Must Pay.

SAN FRANCISCO, May 8.—(By the Associated Press.) The Bank of British Columbia recently for \$70, the amount of a bill of exchange which he received from the bank at Westminster, B. C., payable in this city. While staying in Los Angeles plaintiff lost the bill, but on giving notice received a duplicate from Westminster. When he presented it, he was informed that the original had already been cashed with his name indorsed on the back, and payment was refused him. The plaintiff claims that the name was forged by the person finding the check, and that as he warned the bank, it was responsible; while counsel for the

defendant held that he should have given notice to the local office, as well. Justice Stafford, in giving judgment for the plaintiff, said that he believed Cummings had taken proper means, and that the bank should have been familiar with the payee's signature and detected the forgery.

## A Horse Thief Captured.

HOLLISTER, May 8.—Two horse-thieves, named Lucas and Morse, have been operating in San Benito and neighboring counties for some time. Many horses have been stolen. Yet Kent with a party has been on their track for a month, traveling over 600 miles and sleeping out in the hills. Last night at San Jose, where they were riding in Los Banos Cañon, Lucas was observed coming out of a small cabin. He was heavily armed, but at sight of Kent's band he started to run. Being called upon to stop and throw up his hands, he looked about, and seeing he had no chance, surrendered. He was handcuffed and brought to town this morning and lodged in jail. Nine stolen horses have been recovered.

## The Melbourne Exposition.

SAN FRANCISCO, May 8.—Frank McCoppin, Chief Commissioner of the United States to the Melbourne Exposition, was entertained at lunch this afternoon by committees appointed by representative commercial bodies of this city. Mr. McCoppin, explaining, stated that of the \$50,000 given by Congress to encourage American representation at the exposition, the Secretary of State had set aside \$30,000 for salaries, leaving but \$20,000 to meet incidental expenses. The Oceanic Steamship Company announced that they will take freight for the exposition at half rates, the last steamer leaving the city on June 23rd. The exhibition opens on August 1st of this year and closes January 31, 1889.

## Fire at San Francisco.

SAN FRANCISCO, May 8.—A fire started at 2 o'clock this morning in the planing mill of E. A. Kincaid, near the city front, south of Market street. The flames rose rapidly. In about 20 minutes a general alarm was turned in. Prompt action probably saved a disastrous fire, as the planing mill in the heart of the lumber district, Frank Bros., three-story brick carriage depot, adjoining the mill, was saved with little loss. The planing mill is an entire loss. The machinery is all burned. The loss is estimated at \$8000.

## Mysterious Murder.

WINSTON (Ariz.), May 8.—I. D. Jenkins was found murdered, shot through the head and body, in the Little Colorado River. The remains had been in the water several days. Jenkins was from Nashville, Tenn., and was a photographer. He was in company with a man named Smith, and had lately taken up a ranch on the river. There is no clue to the murderer. Smith is missing.

## Suing for Her Deposit.

SAN FRANCISCO, May 8.—Mrs. Jessie Peterson has filed a suit in the Justice Court against the California Land Association to recover \$100 which she deposited with the company on account of a purchase of the Los Gatos Hotel and livery stable for \$15,000, the balance to be paid within 90 days. Before that time expired, Mrs. Peterson changed her mind and now demands her deposit.

## Utah Central Officers Elected.

SALT LAKE, May 8.—At the annual meeting of the Utah Central Railroad the following officers were elected for the ensuing year: Charles Francis Adams and F. L. Adams of Boston, Henry McFarland and Sidney Dillon of New York, H. C. Hill, Hoyt Sherman, Jr., John Sharp, Jr., Eldridge and James Sharp of Salt Lake City.

## To Head Off the Tereido.

SAN FRANCISCO, May 8.—At a meeting of the Harbor Commissioners this afternoon a resolution was adopted that the Board of State Harbor Commissioners proceed, as early as a day as possible, to the construction of crescent works for the preservation of piers, etc., along the city front. It is estimated that the crescent works will cost \$50,000.

## Apache Prisoners.

TUCSON (Ariz.), May 8.—Deputy United States Marshal Smith has arrived from San Carlos with six Apache Indians, prisoners, five of whom are charged with having been with the Kid in the Indian raid last summer. Two were charged with shooting Capt. Pierce, Indian Agent at San Carlos.

## Run Over and Killed.

PORTLAND (Or.), May 8.—The 15-month-old son of John R. Smithson, a painter, was run over this afternoon by a four-horse wagon loaded with crushed stone, and was instantly killed. Circumstances show that his death was the result of an accident.

## Arrived from Japan.

VANCOUVER (B. C.), May 8.—The steamship Abyssinia, Capt. Lee, arrived this evening, 13 days from Yokohama. She has no sickness. She will sail for San Francisco on the 13th inst.

## Killed with Bird Shot.

SAN FRANCISCO, May 8.—Louis Furor, a 10-year-old boy, living just outside of the city, was killed last evening by a charge of bird shot, fired at a cat, by Joseph Miller, who works on the ranch.

## Pleads Self-defense.

SAN FRANCISCO, May 8.—In the case of John G. Crawford, for the murder of M. V. Burke last January, Crawford today confessed that he shot Burke, but claimed that it was in self-defense.

## The Odd Fellows.

SAN FRANCISCO, May 8.—The thirty-fourth annual session of the Grand Lodge of Odd Fellows began at Odd Fellows' Hall this morning with a full attendance of members.

## Anschlag's Case.

SACRAMENTO, May 8.—The motion for a new trial in the Anschlag case was continued until tomorrow, owing to the absence of one of the Los Angeles attorneys.

## Killed by a Log.

SALT LAKE, May 8.—Richard Mitchell, employed in sliding logs in Provo Cañon, was killed yesterday, being struck by a log.

## Election at Visalia.

VISALIA, May 8.—There was a quiet city election yesterday. A light vote was polled. The entire Citizens' ticket was elected.

## Prewett's Trial.

SALINAS, May 8.—The case of J. T. Prewett, for the murder of Dr. Powers in 1885, began here today.

## A Brave Woman's Battle.

TRUSSVILLE (Pa.), May 8.—At Gresham last night three burglars entered the house of Mrs. Mary Reynolds. The lady was alone, but picked up a hatchet and pluckily kept the robbers at bay. One of the most adventurous attempted to seize her arm, and was struck senseless. He was hurriedly dragged from the house by his confederates, who made their escape. Tomorrow the wounded robber is lying at the point of death at Hydeout. His skull is cracked, and he cannot live.

## Launched.

BATH (Me.), May 8.—The bark Scallion, owned by Holmes & Co. of San Francisco, and to be commanded by Capt. Thompson, was launched this afternoon by the New England Ship-building Company. It is built for the Honolulu and Pacific Coast trade.

## The Eureka's Crew Saved.

PHILADELPHIA, May 8.—The crew of the steamer Eureka, which was in collision with the steamer Bonaca and sunk, were picked up by the brig Caroline Gray after being in boats five hours, and landed here this morning.

## Very Much Knocked Out.

MILWAUKEE, May 8.—A prize fight near Greenfield Park, in the suburbs, Fred Winkle received a blow in the left side from his opponent, named Fuhrmann, which may result fatally.

## DOCTORS' DIPLOMAS.

## The Day of Purchase Gone Forever.

Sound Suggestions at the Cincinnati Medical Convention.

Littlewood Falls Behind in the Great Walk at New York.

A Prominent New York Banker Killed While Trying to Escape a Jealous Husband's Wrath—Fresh Rumors About the Atchison and Frisco Roads.

By Telegraph to The Times.

CINCINNATI, May 8.—[By the Associated Press.] The American Medical Association, with nearly 1500 members present, of whom 25 are women, held its primary session in Music Hall today. President Garrison submitted the annual address. He made several suggestions, which were received with great applause. Among them were the following: That a committee be appointed for each State and Territory to further the passage of a law requiring that in the future granting of charters for medical schools there shall be a clause requiring that all schools or colleges thus created shall demand a full term of four years' study before granting a diploma to any student thereof, and that no student be admitted to matriculate who has not passed a satisfactory examination in the ordinary branches of academic study; to secure an ordinance creating in each State or Territory a board of medical examiners, which shall examine all applicants for license to practice medicine and surgery in their respective States; the faculties of the several medical schools within the limits of the United States are urgently requested to call for a uniform system of medical education, and more in accord with the spirit of the age and the advanced progress of medical science.

## THE METHODISTS.

Conference Proceedings—A Bombshell for the Bishops.

NEW YORK, May 8.—[By the Associated Press.] Bishop E. W. Cushman of Chattanooga presided over the deliberations of the Methodist Conference today. Dr. Buckley of New York said that inasmuch as the lady delegates who had been elected to the conference had been ruled out yesterday, their fares to and from their destinations should be paid by the General Conference. An amendment to pay Mrs. H. G. Stone's expenses was tabled. She was elected a reserve delegate from the South India Conference, and resides at South Bombay.

The report of the committee appointed to inquire into the eligibility of certain lay delegates recommended that they be given their seats.

A question came up as to the right of W. A. Shannon to represent Montana. His name had been adopted by F. A. Higgins. The majority advocated the seating of the contestant Higgins and payment of Shannon's expenses. The minority report advocated acceptance of the returns from Montana and the record as it now stands, and the minutes of the conference, which say that Shannon is legally elected. The minority report in this instance was accepted as a substitute for the resolutions, reciting that final proclamation had been made of the accomplishment of the union between the African Methodist Episcopal Church of the African and the West Indies with delegates from the conference and laity comprising the British Methodist Episcopal Church, who appear here duly accredited; that Bishop Dineen has been fully recognized by the bishops of the African Methodist Episcopal Church. Therefore the union of the two bodies has been satisfactorily accomplished, and this conference pledges itself to stand by this election. This coalition while it has been nominally accomplished, has caused a protest from some of the Canadian and West Indian representatives, and it is understood that the matter has already been carried into the courts.

The presentation of the resolutions precipitated an excited debate, but no conclusion was reached and they were laid aside informally.

The Board of Bishops then announced the names of members comprising the thirteen committees of the conference. Adjourned.

## JUMPED FROM A WINDOW.

Killed While Trying to Escape a Husband's Fury.

NEW YORK, May 8.—[By the Associated Press.] The dead body of Nathaniel A. Hatch, a member of the firm of Walter T. Hatch & Sons, bankers and brokers, was found in the yard of No. 64 West Twentieth street this morning. The facts about his death could not at first be learned, but the story of Mrs. Lillian Scofield, a handsome woman of about 30, suggested murder actuated by jealousy. Mrs. Scofield and her husband, Charles W. Scofield, were taken to the police station this morning, where Mrs. C. Scofield said she had dined with Hatch, who had accompanied her home about midnight. She invited him into the house. Scofield was asleep in the back parlor, he was aroused by movements of his wife and Hatch. The latter was hastily concealed on the second floor. Scofield's jealousy was aroused, and he questioned his wife in the most violent way, concerning the man who had been with her. She steadfastly refused to give the man's name and insisted that he had left the house. Scofield then left the house. She searched for Hatch but could not find him and thought he also left the house. She retired and knew no more of the broker or what happened in the night, until the body was discovered in the yard this morning. Scofield was formerly a broker in good circumstances. He told the police that he had cause on several occasions to doubt his wife's fidelity. Hatch was 30 years old, and lived with his wife in a handsome house on Fifty-third street. His wife was formerly one of the most prominent ladies in Brooklyn society.

The generally accepted theory is that Hatch was killed by falling from the window, while trying to escape from the house. The Coroner's inquest was held this afternoon and Mr. and Mrs. Scofield were examined. From their testimony it was evident that Hatch was killed by falling from the window, while trying to escape from the husband. The prisoners were therefor released.

## RAILWAY RUMORS.

The Atchison's Alleged Deal With the Frisco Company.

CINCINNATI, May 8.—[By the Associated Press.] The Times will say tomorrow: "Inquiries concerning the alleged deal by which the Atchison was to gain control of the St. Louis and San Francisco system have thus far met with nothing but denials. These have come from the highest officials of both roads, and are usually of a most unequivocal character. The rumor has been varied since yesterday by the assertion that the Atchison road had not absorbed the San Francisco, but had bought its interest in the Atlantic and Pacific line, which is owned jointly by these two companies; but it cannot be learned that there is

any more foundation for this report than for the previous one. There seems to be some reason to suspect that a deal has been undertaken, but that the report of its consummation is premature. Certain directors of the Atchison of some time ago talked about a consolidation, and largely increased their holdings of the San Francisco and St. Louis stock, but lately it has been generally supposed that the project was abandoned. There is a suspicion in some quarters that the recent rumors might have arisen from an attempt to get the price at which the Frisco would either buy or sell its half-interest in the Atlantic and Pacific."

MONTREAL, May 8.—A private dispatch from Minneapolis states on the authority of Gov. Pillsbury that 1000 shares more than the controlling interest in the Sault Ste. Marie Railroad have been sold to officials of the Canadian Pacific.

## An Actor Hanged.

PHILADELPHIA, May 8.—Robert G. Hall and David Vincent were hanged at the County Prison at 10:13 this morning. Hall was the actor who murdered Mrs. Lillian G. Hall, his mistress, about a year ago in a very sensational way, then attempted his own life but failed, after lacerating his throat terribly. Hall prepared for his death with remarkable coolness. During the past fortnight he has given most minute descriptions for the disposal of his body and effects. His novels, songs and poems are methodically tied in bundles, ready for mailing to his friends in the West. Vincent was an Italian. His victim was an Italian sailor named Signeoni.

## Surviving a Dislocated Neck.

CHICAGO, May 8.—A special to the Times from Sioux City says: Reginald Ford was driving today when the vehicle was stopped suddenly by the wheel catching in a street railway track, and Ford was thrown fully 20 feet, alighting on his head. Allen Vinton was the first person to reach Ford, and found him apparently dead with his neck dislocated. He took hold of Ford's head and gave it a sudden turn, and the vertebrae slipped back into place. Ford soon regained consciousness, and if he escapes from the effect of brain concussion can boast of being one of the few living persons who have had their necks dislocated.

## A Tame Prize Fight.

BOSTON, May 8.—The fight tonight at New Era Hall between Tommy Danforth of New York and Jack Harlin of Charleston proved a very tame and unsatisfactory affair. Although announced to be a 15-round fight, the contest was drawn through 18 rounds, when the judges declared it a draw. Danforth's face showed more marks of violence than Harlin's, although neither of the men were badly used up. The fight was nominally for a purse of \$500, and on the whole was a rather poor affair.

## A Light Penalty.

BUFFALO, May 8.—Hiram B. Everest and Charles M. Everest of the Vacuum Oil Company of Rochester, convicted of conspiracy in trying to injure trade and commerce by attempting to blow up the Buffalo Lubricating Oil Works in 1881, were fined \$500 each by Judge Haight in the Supreme Court this afternoon. Several suits were brought by the Buffalo Lubricating Oil Works, claiming damages amounting to over \$200,000.

## A Corner in Corn.

CHICAGO, May 8.—The daily News says that a syndicate composed of local bankers and two wealthy merchants are practically in control of all the corn in sight with few exceptions. Shippers and receivers did their buying for them, consequently their movements have attracted but little attention. The syndicate proposes to keep corn well up to 60 cents for all the months up to the marketing of the new crop.

## A Murderer's Escape.

LEBANON (Pa.), May 8.—William Showers, under sentence of death for the murder of his two grandchildren, escaped from jail here last night. He dug a hole through the solid stone wall and lowered himself from an opening with a rope made from pieces of blanket. Showers is 70 years old. He left two letters, one addressed to his counsel, and the other bidding defiance to the people who threatened to lynch him.

## A Claim in Court.

NEW YORK, May 8.—The claim of the children of the late Joseph Walker, of Vinegar Bitters fame, against R. H. McDonald & Co. of San Francisco for \$343,000, alleged to be due from the profits on patent medicines, was in the Supreme Court this afternoon. W. D. Packham, administrator of Walker's widow, was plaintiff. The Court reserved its decision.

## Killed by a Bursting Boiler.

MANCHESTER (N. H.), May 8.—A boiler at the sash and blind factory of J. Hodges exploded this morning. William Tyler and Harvey Emery were killed. Engineer Thompson was fatally injured. A piece of the boiler struck the house of Mrs. James Mahoney, 500 feet distant, and fatally injured that lady.

## Death of an Old Surveyor.

W. P. Reynolds, aged 62 years, and the oldest surveyor in Los Angeles county, died at his late residence on Monday evening. Last week Mr. Reynolds was thrown from a buggy while visiting his ranch, sustaining injuries from which he never recovered. An inquest was held last evening by Coroner Meredith. Dr. Cohn made a postmortem, and on testifying that he believed Mr. Reynolds died of heart disease the jury returned a verdict of death from natural causes.

## The Weather.

SIGNAL OFFICE, LOS ANGELES, May 8.—At 4:07 a.m. today the thermometer registered 55: at 12:07 p.m., 67; 7:07 p.m., 56. Barometer for corresponding periods, 30.10, 30.13, 30.07. Maximum temperature, 71; minimum temperature, 54. Weather fair.

## SPECIAL SALE.

## BUSINESS.

OFFICE OF THE TIMES.  
LOS ANGELES, Tuesday, May 8.  
The markets are all active, all kinds of produce being in good demand, and prices remaining about the same as yesterday. Fruits are strong, and the market is well supplied, large quantities coming in daily.

**Stocks and Bonds.**  
By Telegraph to the Times.  
New York, May 8.—Money on call easy at 1 1/2 per cent, closing at 1 1/2 per cent.  
Prime mercantile paper, 5/8.  
Sterling exchange, active and stronger at 4 1/2 per cent for 60-day bills; 4 1/2 per cent for demand.  
New York, May 8.—The stock market was again only moderately active and generally weak, though there were sporadic advances during the day, as well as marked recoveries at times. The influences at work upon the list were mostly in favor of a lower range of values, the principal one being the selling of stocks in this market by foreigners, induced by higher rates for money in London. Local bears hampered the list, especially in the forenoon. Other influences, such as the illness of the Emperor, the recent Coleman failure and small acceptances of bonds by the Treasury, had some effect in producing a general bearish feeling. There was more activity in the late hour, however, and the market again yielded finally, closing heavy.  
Mining shares were in good demand.
